CHAPTER I

The HOWARD SPIRIT

THE FACULTY
KNOWLEDGE WISDOM
RULES

Ideals for Howard

Ideals for an institution of learning are necessarily both physical and spiritual.

On the physical side, it is our dream to have, in the near future, a practically new set of buildings which shall possess architectural beauty and which shall be in harmony with the best traditions of academic construction. These buildings should not only be beautiful, but they should conform to the most modern demands in arrangement and equipment.

The success of the college depends very largely upon the number of its instructors and their scholastic preparation. As the college grows, it is our purpose to bring into the faculty an increasing number of teachers already successful in the art of instruction and in creative ability.

It is our hope that the level of study and scholarship in our student body may be increasingly higher; that our students may always exercise a spirit of common honesty in their daily relation with each other and in their conduct in class and on examination; that their lives may be guided by a spirit of gentleness and courtesy; that they may become responsive to generous impulses and noble aspirations.

It is our desire that Howard College may increase in educational spirit, and that it may become a place in which interests are created, enthusiasms kindled, love for truth inspired, and where learning, rather than information, is the goal of the teaching.

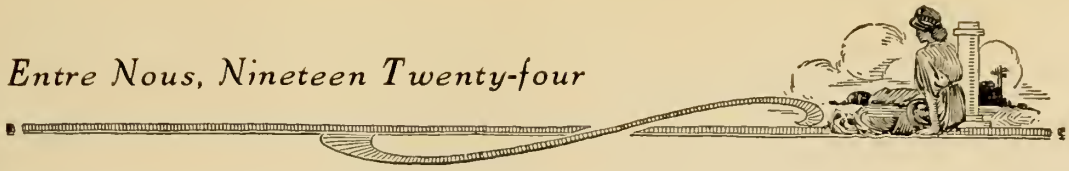
Farewell

Classmates, the sand is low. Time's course has run,
  And we approach the parting of the ways;
The work and toil of four long years is done.
  And, if a smile upon our "God-speed" plays,
  Be sure 'tis but the lightning that betrays
The deep, dark-breasted cloud that robs the sun—
A yearning for the days that time has won—

For what if duty here should bind us fast,
  Yet lead some forth into the world of men?
The tie that binds is proof against the blast,
'Twas forged in the white heat of service, when
  The tests of college left us only men,
To whom the whole wide world is not so vast,
But what the goal may well be reached at last.

Grip hands, the sand is out. Time's course is run.
  Let's swear by each that we will all be true;
That Duty, Honor, Country, all in one,
  Shall ever bind us with a vow anew—
  The class united to the class be true;
That when we meet beyond the setting sun,
Each comrade will reward us with "Well done."

GEORGE W. YARBROUGH, *Class Poet.*



Senior Class History

LIKE the gallant knights of old who rode out in search of the Holy Grail, so must we soon leave on our divers pilgrimages. Seniors, now men and women, rulers of the land of tomorrow. From the top rung of the ladder, the goal of all in quest of education, we leave behind these few lines, lest ye forget the Class of '24.

To recapitulate all the happenings and achievements and to specifically designate any one exponent in this "Wonder Class" would be a reiteration of what is generally known.

We are modest in that we speak not of our great achievements, but let them speak for themselves. A brief resume of the three years previous to this will enable one to trace the making of the great men and women who comprise the Class of '24.

On a memorable September morn in 1920 the vanguard of this, now twenty-four, class marched on old Howard. We who came started out determined and tenacious, but we were soon to learn that a Freshman's life was a hard one. Never letting our banners trail in the dust, we moved on, leaving behind records in every department of college life.

"Time heals all wounds" of a Freshman, and in the process of evolution we became Sophomores. At this stage we capacitated as any good Soph should, tormenting the weak, but never failing to lead the way.

Another step and then "The calm before the storm." As Juniors we lost many of our old standbys, but others came from far and near, filled the vacant places, and we pulled anchors and sailed on through stormy seas.

Finally, we are what you see us today, Seniors in every sense of the word. Working, winning, always leading, leaving behind memories of leaders in athletics, literary achievements, scholastic rewards—everything. The biggest of all Senior classes to date, and by far the greatest, will be known not only for its individual workers, but also for the success it attains through the power of unity and co-operation.

Now as the cradle of time rocks endlessly on and on, the time comes when we must go. We go out into the world to make a name for ourselves and to try and bring glory to our Alma Mater. To those left behind, remember this: "CARRY ON." There is a big task for you to do and you must be big people to do it.

Classmates, this is our hope: May the bad we have done be forgotten, but may what little good we have done be remembered always.

This is the parting of our ways, so now we must go and try to make history out in the world.

May you make it there.

CARLTON LEE,
Historian Senior Class, '24.

Senior Prophecy

TIME 1935

LITTLE did I dream, in 1924, that eleven years from that date I would be traveling agent for the largest matrimonial bureau in the world, but such is the case. And, since I hold such an important position—one which requires a great deal of travel—I dare say I had had experiences that are denied most individuals.

My first really notable achievement in my profession was the arrangement, quite to the satisfaction of both parties, for the marriage of Hilton Upton and Jeanette Vaughn. Such a happy pair they are, too! I recently attended a most gracious reception at their home, and I was quite surprised to find that the number of their servants included Hugh Barfield, butler, and Lucile Dorroh and Ruth Wallace, maids. The guests included all the members of the Class of '24 who were still in Birmingham. Grady Ketchum was there in his frock-tailed coat—but why describe him? I simply have to state that he is pastor of the Olive Branch Baptist Church. He has Luther Weaver as his assistant pastor. And Miriam Thornton—poor dear!—was there. She looked as if she hadn't even smiled for years. You know she was disappointed in love. She gave me her name and photo to include in my newest catalogue of "Those Who Would Be Wed." Mildred Basenberg is creating quite a sensation among church-goers as organist at the Frist Baptist Church of Irondale. Turner Jordan and Evolyn Graves are proprietors of the most up-to-date beauty parlor in Birmingham. Evolyn takes great pride in her latest "henna," and though Turner never applies any of the beautifiers, he loves his work and has recently delivered a lecture on "Beauty as an applied art." By the way, there was one out-of-town guest at the reception—James Jarrel. The girls used to rave about what a divine dancer "Jimmie" was and I guess they were right. In fact, his present position proves it—he is dancing master at the "Home for the Nearly-Nutty." "Jap" Hendrix came in late and said that she was detained by official duties. She is scholarship editoor of the *Birmingham News*. We all remember that at college she seemed to take particular interest in a certain *News* scholarship boy, and no one doubts her efficiency in her present position.

Having my office in New York City, I have had the privilege of meeting quite a number of our former classmates in the great city. Quite often I go to the cabaret and have the supreme pleasure of seeing Roberta Treschsel and Lillie Barnes in their newest dances. On two occasions I have seen there Frank Mullins and Ethel Clark. Frank is singing for a victrola company, with Ethel as accompanist. His records are wonderful. I have bought quite a number of them at Kress' for ten cents each. By the way, Lee Head was salesman there and he seemed to be holding his job down well—and you should have seen the flock of women buying records. The women all "flop" for Lee as usual, but, say, don't you think it's time he settled down?

Last season I attended a number of performances of Shakespearean plays. I was surprised to find a number of old friends playing in these dramas, and such heavy roles, too—Eleanor Chandler, Mary Bunn Gay and Ellie Earle Sides have won fame through playing the witches in "Macbeth." What talent they have and a splendid opportunity to display their talent in these prominent roles! And don't let me fail to mention the stage success of Bob Shelton and Broughton Lambreth. They were grave-diggers in Hamlet. Would that I, too, were a great actor! At a performance of Hamlet I saw, across the theater, Orlando Ogle and Willie Kirk. Oh, but they were fair to gaze upon! They are posing for a fashion revue.

I never confine myself to my work entirely. I go about and try to appear interested in many things. Dr. Virginia Hill, with Ellie Mae Lawley as assistant, has established a great hospital where they give a treatment for laughing. They have decided laughing is a bore and they give all grouches a guarantee that one treatment of theirs will render them immune to laughter. I believe they've tried it on themselves, for when I saw them they were as gloomy as clouds on Christmas day. Gertrude York, Jewel Hagood and Rosalie Smith are nurses there and

Spurgeon Brindley is an interne. Nellie Gibbs has done a great deal as a philanthropist. She has founded a "Home for Lost Cats." I can't understand the change in her. She liked "Rats" so well in college.

Clarence Thomas and Mildred Murray, in collaboration, have discovered a substance that will cause ivory to become porous. Such a pity they didn't discover it when we were in college. It would have been a great help to us who are stricken with ivory domes.

I have just seen Fred White's latest minstrel advertised. It promises to be a big hit this season. He has some good workers in his minstrel this year. They include Frank Norris, Harwell Allen, Erskine Braswell and Eschol Darden.

I met Carlton Lee the other day and he began speaking in a circumlocutory and pleonastic cycle of oratorical sonority—didn't you know he was compiler of the latest dictionary? In this dictionary he has included not only words that others know, but also those known only to himself. He was assisted in this work by J. B. McCollum.

I happened to be in Washington when the Senate convened recently and whom should I see but Emory Lowry and Julian Newman. They are representing, respectively, Alaska and Porto Rico in the Senate. Buckner is working in connection with the Senate as framer of bills. The latest law of nation-wide importance was that proposed by Senator Lowry, prohibiting the chewing of gum on street cars. This group of my worthy friends took me to the theater that evening, and we saw Jewel Darden and Dan Gaylord starring in the latest screen version of "Around the World on Thirty Cents." Next day I met Miss Burns on the street—and would you believe it? She looks younger every day. I asked her how she did it and she said it was due to her discovery of the Fountain of Youth. Next evening I took a taxi, which was driven by Nelson Willis, and went to the opera house. I heard the first concert of the Washington Symphony Orchestra. Frank Lasseter was director and Glenn Gibbs, "Dutch" Norwood and Carl Hearn were playing.

I was reading a few days ago that T. E. Swearengen, G. G. Williams, and J. M. Vanderford were chosen to represent the United States at an international conference of the clubs for better treatment of husbands. Speak for yourselves, Johnnies!

George Yarborough recently tried to sell me some stock in his brass mine—but I didn't take any, since I have brass of my own.

Gross has given his entire time to making new discoveries. He has found in Borneo dinosaur's eggs which, he claims, are five million years old.

I found two of our classmates in Kalamazoo. Miss Ratliffe is at the head of the community center work there. She loves her work. George Economos is practicing medicine there, and to see him swing his pill-case around you'd think he owned the world.

Miss Gregg is living peaceably in Cleveland. She has always doted on Howards. She has a brother named Howard. She graduated from Howard, and now—well, her better half is called Howard, also.

Beatrice Caver is a queen—I beg pardon—she is Mrs. King. But the error is quite natural, for I always think of a Mrs. King as a queen.

Graves Knowles has been putting forth every effort to become an inventor. At present he is trying to produce a noiseless soup-spoon. But he can't decide whether to put on brakes or a soft pedal. I suggest that he amputate a few overdeveloped lips.

I must not stop without a further advertisement for my already prosperous business. My newest couple is Dayton Riddle and Aileene Gullahorne. They were attended at their wedding by Florine Hagood and Alma Smith. I understand that these also will soon set sail upon the sea of matrimony.

Roswell Owens is a missionary in the Fiji Islands. He is doing a great work and he bids fair to make a civilized people of these Fijians.

Fate has been kind to most of us. This is a partial record of the deeds of the Class of '24. In 1945, upon request, I shall be glad to render a more accurate record. GEORGE NEELY.

History of the Junior Class

IN the spring of '21 from the many high schools of the state, and even from outside the state, the various Senior Classes were thrown on the current of life and, like ships leaving their ports, which have been their haven of refuge for so long, sailed their way through uncharted seas, for there is no chart for the seas of knowledge, and their course must be chosen as one's ambition is intense.

After sailing seas of doubt and disappointment for three long summer months, in which many perished from the lack of courage and ambition, others were the victims of fate, but those of the stronger heart and greater determination at last found the rough seas behind them, and ports of higher education bordering the rim of peaceful harbors lay before them. Into these harbors sailed these buccaneers, but it seems that some ports were more fortunate than others in quality of knowledge seekers obtained. Such was the case of Howard College on that bright, eventful morning of early September, '21, when so many industrious, intelligent, well-meaning, but ignorant, Freshmen dropped anchors, and became a part of this classic old institution. We were not long in learning what the "put and take" game meant to the college life—the upper student, usually the Sophomores, "put," and we rats did the "taking." After we had acclimated ourselves to our new surroundings and privileges, wearing rat caps, walking on the grass, no loitering on the campus, dodging bed slats, if possible, evading hazing with the risk of the dose being doubled, and many other forms of amusement which we always enjoyed—after it was over—it was estimated by the student body, that we constituted one entire class. We were informed that we possessed more in numbers, more in ignorance, more in petty high school dignity, more greenness, than any other class yet to invade such historical buildings. We were proud despite the fact that our "superiority" was enough to make even the most dignified professor laugh up his sleeve.

Some of us soon found ourselves in athletic uniforms working for a berth on the teams, others devoted themselves to studying and making "A's;" still others did their best to exhaust Nunnelly's supply of soda pops, and extinguish what cigarettes that could be "bummed." The girls contented themselves with slyly trying to vamp the most fortunate Romeos, the art of vamping being a newly acquired weapon for defense, as well as offense, which they used to a great advantage.

Among those winning varsity berths were Jesse Lackey, Toby Stubbs, "Bull" Cooper, Ralph Brown, "Coyote" Roberts, Rowdy Crew, and others who saw much service on the varsity teams this first year. Jesse Lackey won the honor of being the best athlete in Howard. Some distinction! Sponsors, maids and popularity were some of our strong advertisers, and the beauty of the girls. The first year ended with our hearty approval. However, we now realize that it is the Freshmen that get the rush.

The second year began after a three months' vacation, and passed after nine months of eventful college life and study. We were sure of ourselves. Very sure, as we felt it our brotherly duty to get the new "Fresh gang" started right.

An honor roll student was no unusual personage in our class, as the number making the honor roll was unusually large. Our social position on the campus was as good as we ourselves had anticipated. The college beauty was one of us, Miss Nell McElhenney. The best all-round athlete, as in our first year, was selected from our number of qualified, Mr. "Ham" Stevens. No varsity squad can be named without naming stars from our class. Has any other class ever had as much to be proud of as we?

And, now, toward the end of our Junior year, still strong in numbers and determination to continue as we have started. Our years so far have been meritorious ones, with the last always triumphing over the one just preceding. Many of our number, once popular only in our own class, are in the minds of the entire student body and faculty, as well as all true supporters of this grand old institution.

"Ham" has been elected captain of next year's football team, '24. As we are about to turn on the last lap of our college life, it is a source of pride to all of us that, while we have been in college, we have not lived in the past or future, but were occupied in raising the pegs of records to the next notch above, as we marched abreast of old Father Time.

Juniors, no one knows us yet as we intend they shall; we have broken records, raised standards, but let's not be content with this. Our last year should be the oustanding year, so let's all be back next year, and give them the best part of our life and efforts. *Them?* Yes, Howard and the best of Howard—the Class of '25.

H. H. AWTREY, *Historian.*

Sophomore Class History

ON that august day of September 5, 1922, the largest class of "rats" that Howard had ever had gathered together. We were green, yet fresh in our greenness. Nothing fazed us, nothing daunted us, and under the leadership of Jep Dendy, who was then an apple-cheeked country lad, our class pressed forward and made itself heard from on the campus.

The most honored distinction which we received on the campus was winning the prize "stunt night," in which all of us strutted our greenness.

We parted in tears last spring, and the only comfort we had during the withering months of summer was that next fall we would meet again on the old stamping ground.

We did meet with the same enthusiasm of our Freshman year. We are Sophomores now and we have changed, yes, changed, for we realize the seriousness and the responsibility placed upon us as being shining examples for the "rats," and far be it from us to err in any way, so that by our erring a young and innocent mouse might go astray.

We are particularly proud of "us" that made letters in fooball—Jep Dendy, Fogus Williams and "Big Tink" (Tinklepaugh). Then, too, Fred Freeman is the first band major of Howard. Two from our ranks have distinguished themselves by their piety, and were selected, with two others, to represent Howard in Indianapolis at the Student Volunteer Convention. We were represented by Bill Hardy and Paul Barnett.

We are all talented and have had notoriety many times before, but we're just too modest to catalog all of 'em. In fact, we feel, along with the rest of the school and faculty, that the college would simply go to the "dogs" without us.

ELIZABETH LOYD, *Historian.*

Sophomore Class Poem

To thee, dear Howard, we will pledge
Anew, allegiance true,
Thy standards to uphold for aye,
Thine ideals e'er pursue.

United we will follow thee,
For thee all honors gain,
Ne'er satisfied to cease to fight
If one unclaimed remain.

Like knights of old, by Arthur led,
Who formed the table round,
We'll ne'er break faith, but eagerly
Thy praises always sound.

DOUGLAS M. BRASWELL.

The Ship of Knowledge

Dedicated (with apologies) to the Class of '27.

There's a wondrous ship sailing on through the sea
And it is heavily laden for Postivity.
Through seas, ever changing from calm to storm,
Past snags of Oppression, of Hatred, and Wrong;
'Round the rocks of Oblivion, the banks of Despair,
Weathering chill blasts of Distrust that sweep through the air;
Onward and onward, scarce turned from her course,
Sails the good ship of Knowledge, from his heaven-born source;
Through the dark seas of Ignorance she sails on and on,
With her cargo so precious she weathers each storm.
Yet her crew's ever changing, and her pilot, Old Age
Must relinquish the helm soon, having cancelled his wage.
The world, then, beckons—beckons to all,
Hear it, O, Classmates—answer the call!

MAYER U. NEWFIELD, *Freshman Class Poet.*

Freshman Class History

THIS Freshman Class of '23-'24 goes down on record as a history-producing set. We no douht do things and do them in a big way. As for the higness of things, ask the Sophomores if big, slimy remarks are not the things we "ain't got nothing else except?" At least that is what we heard. In fact, all the upper classmen say that the air becomes very warm when we approach, due to our largeness in the vocal capacity. Nevertheless we Freshmen realize the necessity of a lengthy line since we are good for nothing but to talk. They say Rats don't know enough to come out of a rain—so there you are.

However, in spite of our excessive noise, the Rats of this year are making progress. Our meetings up to date have heen a very enjoyable feature of the year. At various and appointed times we have met to discuss the whys and wherefores. We have heen ably led in these meetings by our most able and efficient president, Harold Tinklepaugh. The Freshman Class under Tinklepaugh's leadership has grown till it now represents the largest Rat class in the history of Howard College. One of these meetings took place on the historical afternoon when the Whose Who Delegation was elected. We elected to our Whose Who Staff talents in the many modes of character and endeavor, ranging from the biggest "two-timer" on down to the most "hearty-eater."

One of the achievements of the Freshman Class of this year was to edit an edition of the *Crimson*. We Freshmen especially are convinced that this edition of the *Crimson* will stand high when the reckoning comes to determine which class put out the best edition of the *Crimson*. What could have heen more appropriate for this issue than to have had it printed on that good old ignorance-signifying "green" paper?

The social side of the class has been very highly and enjoyably upheld. One instance will serve to explain, that of the Kid Party. The party was held at Miss Margaret Perryman's home, which was skillfully decorated in Howard's colors. Such popular juvenile games, as hide-and-seek, pinning Buster Brown's tie on, and the circus were enjoyed to the utmost.

The next, or rather the most important event in our year, was the Bulldog-Panther scrap. Although the crowd could he detected, that glorious color scheme of Red and Blue perched on top of our domes in the shape of Rat caps. Down there on that field fought the hest football team Howard has ever had and we shall never forget the wonderful spirit they showed on that memorable day.

But one day sad news reached the camp. One of our most prominent and seemingly influential co-eds joined the ever-increasing army of matrimony. Poor thing, another girl gone wrong! Quite a few on this most sorrowful day were seen carrying tear absorbers, lamenting the loss of our Freshman.

By the way of parenthesis, they say that another marriage has taken place or is about to take place. Whether this is so or not I couldn't say. Who will tell the straight of the matter? Here's wishing all of our brother Freshmen who are adventuring into this stormy sea the "hest o' luck," and like the colored preacher we all say, "What de good Lord hab jined assunder, let no man put togedder."

As a climax to the Freshmen events of this term, "stunt night" takes its place. The stunt was executed in high-class order hy all those taking part. Miss Haynes greatly aided the Rats in the big showing made on this night.

Truly the Freshman Class has lived up to its reputation of attempting and doing big tasks.

Freshman Class Prophecy

JUST as the muddy water of the Saone mingles with the clear water of the Rhone when they flow together at Lyon until one is lost in the other so the members of the Freshman Class of '24 have come together from various places to form the greatest class that Howard College has ever known. For one year we have watched each member of the class develop in a way which differs from each of the other two hundred members. Such love has grown up between us that now, as I sit and gaze into the crystal in which I see reflected the future of each member of our class, my heart is filled with mingled joy and sadness; joy because, in looking into the future, I see reflected the success with which each member of our class has met and the renown which they have brought to our Alma Mater; sadness because the time which we may spend together is all to short.

But let us put away these useless thoughts and devote our attention to the future of our class as it is reflected in the crystal.

There they are—the men wearing the Howard sweaters. These men, having starred with the varsity or Bull Pups in '23, will be responsible for the downfall of the Panther in '24, '25 and '26.

Ah! whom do we see slowly approaching now? It can only be the ministerial students of '24. These men who are now doctors of divinity appear as noted pastors, evangelists, and missionaries. But one is missing. What could be the cause? Poor fellow. He felt called to be a special missionary to the women. He survived only a short time.

But our dear old class will be famous in other ways, too. Our students are as famous in 1934 as in 1924. Indeed, one of them has soared to the sublime height of being president of Howard College. He seems to be filling "Long John's" shoes very well except that he is not yet bald and his largest dimension extends in a direction which is at right angles to that in which Dr. Dawson's extends.

Of course, the women must have a place. Each of them is famous in her line. One young lady, famous for dimples, has just made public her special method of manufacturing them. Many of the flappers who have now reached the zipper age are zipping just as hard as they flapped in '24. But one of them stands out above all others. What could she have done? Easy enough. She married one of those Howard jellies. He is now employed as a model at Pizitz.

Oh, those Howard politicians. I see two of them here raising a big fuss about an election. Both are running for mayor of Irondale.

Some one seems to be missing. Oh, yes, there he is. The one original Howard sheik. He returned to Howard in 1934 to take postgraduate work in the campus course.

ATHLETICS

But Right or Left as strikes the Player goes.

CHAPTER III

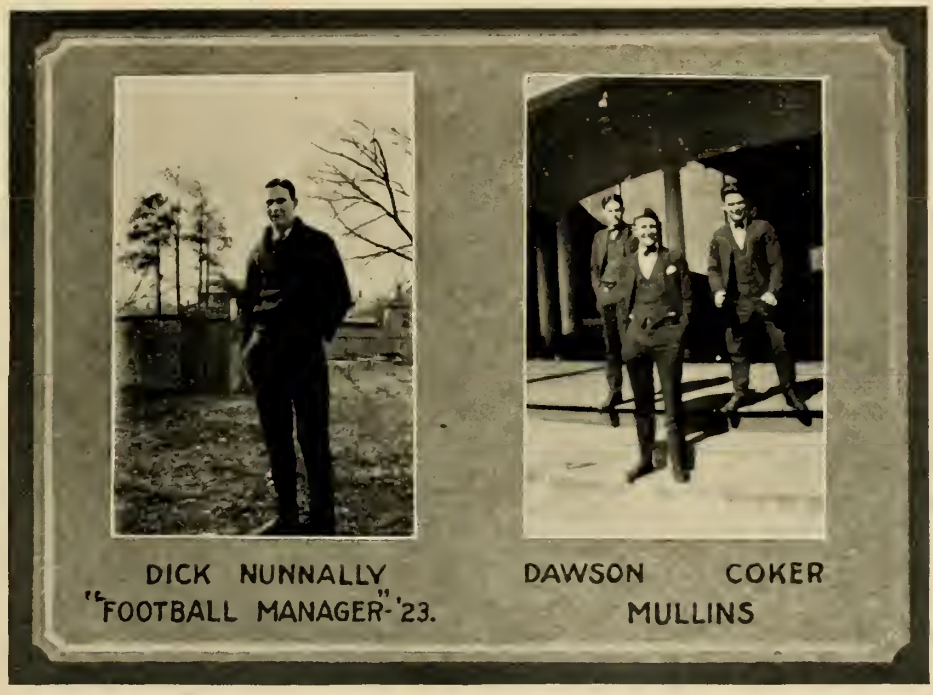
Our Coaches

Harris G. Cope, who directs the kennel of Bulldogs at Howard, came to us from the mountains of Tennessee, where he had for many years trained and handled the Sewanee Tigers. He spent nearly half of his life as a student, football player, assistant coach and head coach at Sewanee. He it was who created those famous Tiger teams which held undisputed supremacy in the South for many seasons. Since coming to Howard he has won the heart of every student and has turned out the best team that Howard has ever had. Small in size, large at heart, a clean sportsman, and a gentleman—that's Harris G. Cope.

Robert Taylor Dobbins, for four years an All-Southern tackle at Sewanee, came to Howard with Coach Cope, under whom he played for four years. Having been captain of one of Sewanee's most famous teams, he knew how to lead men. As a line coach he has but few superiors in the South. Everyone knows how that line held against such teams as Auburn, Union, and Vanderbilt. Who will ever forget that 0-0 tie with Mississippi A. & M.?

With these splendid men at Howard we expect to continue to turn out better teams until Howard becomes one of the ranking colleges in the South in an athletic way.



Here's to you, Dick Nunnelly! We know that you were by far the best football manager that Howard has had in many a moon. If any manager deserves to wear the "H" you do. Your head certainly contains something besides air and sawdust. We are proud of you and the success of your schedule financially. No man could have done more because you did your duty and that covers the territory like hot sand covers a desert.

The Cheer Leaders and Managers

Many of us never stop to think about the important part these boys play in a successful season. Last fall it was the comment of the entire college that Howard had the "Peppiest" gang ever corralled at the institution. How many of us ever stopped to think who was back of this great spirit? Frank, Gene, Coker and Braswell—all of them were the great source of inspiration. At times we were prone to become forgetful and negligent, but they never let up; they never went to sleep on the job. Who can ever forget that yelling on the day of the Millsaps game? Rain, mud and everything to chill one's spine, but the old pep was there and these boys succeeded in getting the best yelling out of the entire season. Every time the team left here they were given a send-off. These are only a few of the things that these boys have done this year. No college anywhere could boast of better cheer leaders and we hope to see some of them back on the job this fall.

BOB SHELTON *(Captain)* . . . . . *End*

Gaze upon him, gentle reader, for he is a terror. He has sent more men out of the game by his deadly tackling than all the rest of the team put together. He played the greatest games of his career against Southern in '22 and '23. His place will be hard to fill. No better end has ever worn the Crimson and Blue.

"SNAKE" BAINS . . . . . *Guard, Tackle or Center*

"Snake" is about the most useful member of the squad. He is an excellent tackler, a dependable guard, and has had an entire season at center while at Jacksonville State Normal. He played good consistent football all the season and proved to be one of the mainstays of the line.

HUGH BARFIELD . . . . . *Tackle*

"Barefeet" hails from Lineville, from whence came the 'Bonners," Rip Reagan and others who have trod famous Southern gridirons. Hugh has made a name for himself at Howard. He fights all the time and is a fast, hard tackler. He is, perhaps, the world's champion "Sleep Misser." However, he is one of the best tackles Howard has ever had.

HAM STEVENS *(Captain-Elect)* . . . . . *Quarterback (All-State)*

Here is the gentleman with the educated toe. He is dearly beloved over on "Sunshine Slopes" because of this fact. We have scored fifteen points on Birmingham-Southern in the past two seasons. Ham scored them every one. His ability as a field general won for him All-State quarter this season. He is one of the best punters in the South and a dangerous broken-field runner. As captain of the Bulldogs for 1921, Ham has the greatest year of his career before him.

RUSSELL TINKLEPAUGH *("Tink")* . . . . . *Quarter and Halfback*

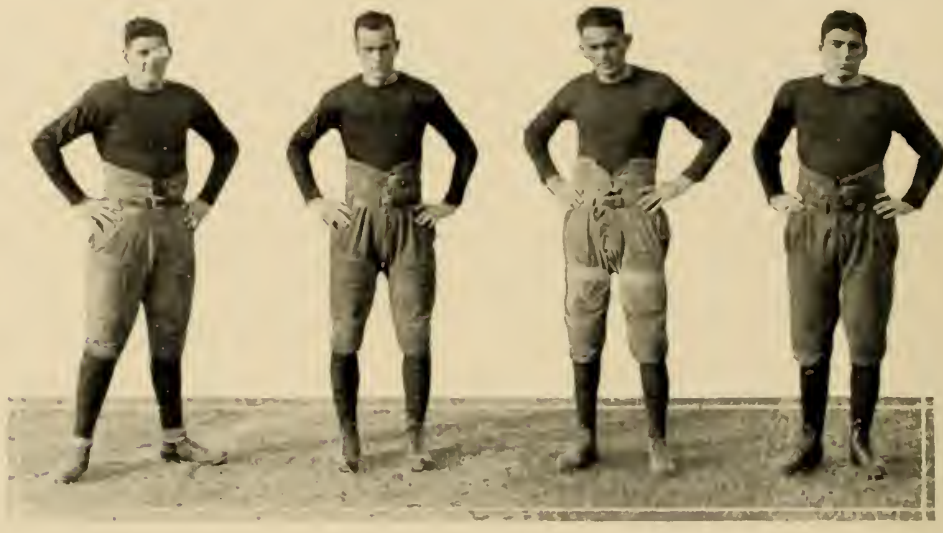
Little "Tink" is one of the most versatile players on the squad as well as one of the most popular. He is fast and heady on the field and runs the team like a veteran at quarter. He is the smallest player on the squad, but has plenty of grit and never quits fighting. This marks the end of his second season.

"GOOSE" WILLIAMS . . . . . *End*

In Williams, Howard has a dependable end. He is also a good center. All last season "Goose" was troubled with injuries. Fate was more kind to him this season, and "Goose" is now the proud wearer of the Crimson "H."

TOBY STUBBS *("Mule")* . . . . . *Guard*

Here he is. Toby the turbulent, otherwise known as "Mule" Stubbs, and along with all this he is just about the best guard of his size in the entire South. His work, ever since coming to Howard, has been of the stellar variety.



JEP DENDY . . . . . *Tackle*

Jep's knee has been his "Jonah" since the middle of last season, but he played wonderful ball this season. His work in the Southern and Chattanooga games was excellent. He is a hard worker and has two years more in which to perfect the good work he has begun.

"BO" BRINDLEY . . . . . *Center*

This season was "Bo's" last season as a Bulldog. Four years he has been an outstanding man on Howard's teams. No cleaner man or harder fighter ever donned the Crimson and Blue. He was last year's captain and a good one. We shall ever remember him for the great work he has done for Howard.

FRANK LASSETER . . . . . *Tackle*

Who was it that said, "If at first you don't succeed?" Frank is the hardest working member of the team. He studies the game and keeps on his toes. Besides this he wins prizes for scholarship, etc. Frank is a good football player, one who knows the game, and is a dandy student as well.

FRANK NORRIS . . . . . *End*

They called him "Jelly" and laughed when he came out last year for end. How many saw this same Jelly spilling interference, outrunning punts, hitting them for losses on off-tackle plays? He is conceded to be one of the neatest little ends any of the smaller colleges turned out the past season. This is Frank's second year on the team.

MARVIN MCCARTHY . . . . . *Full and Half*

Boy, page the hero of the season. In practically every game of the season the work of this boy has been the center of comment. He is the hardest hitting little man on anybody's football team. Running low and hard with an uncanny knack for finding openings, "Mac" has been the best bet of the year for needed yardage. His improvement over last season has been little short of phenomenal.

"FATTY" BROOKS . . . . . *Guard*

Here he is, ladies and gentlemen, the largest man on Cope's squad. The biggest Bulldog of the lot. "Fatty" hails from Cullman, where he received his high school training. His playing has been good, and by the time his fourth year at Howard comes around, he should be a guard who will be hard to handle.

FRED WHITE . . . . . *Half*

Fred broke into football fame last year against Southern, where his wonderful punting was the main reason for that 9-7 victory. He is a hard worker at all times, and is perhaps the fastest member of the backfield. He is fast and aggressive, always in the game.

LOLLAR . . . . . *Fullback*

Lollar comes from Walker County, too, and his punting and ability to plunge a line won for him a place on the regular line-up. His work on the defense has been the delight of the coaches. He has three more seasons.

"Bull" Spicer . . . . . *Guard*

"Bull" came to us from Andalusia. He began to attract attention from the very start. He has played good ball all the year. Perhaps he was at his best against Auburn. This is his first year at Howard.

"Polly" Scokel . . . . . *Half*

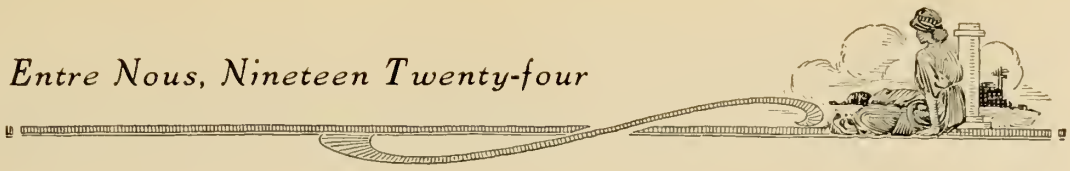
"Polly" came to us from Ensley High and was a member of the Bullpups for a while. His work against Etowah High was so good that he was placed in the regular line-up for the remainder of the season. He is by far the best side-stepper on the team, and with the coming season should cause would-be tacklers a lot of worry.

Claud Brewster . . . . . *Center*

Claud came to us from Wills Taylor, where he served as captain. He showed up well for a new man. In the games he played he showed himself to be a clear-headed, aggressive player. His passing was well done on dry and wet fields.

Dan Gaylord . . . . . *Halfback*

Dan has worn the Crimson and Blue for quite a while. He is an all-'round man. He has starred on the gridiron, on the diamond and on the basketball floor for Ole Howard. He is the fastest man Howard has on any of her teams. A fractured wrist handicapped him this season, but he rendered good service at that.



Football Resume

THE season of 1923-1924 opened with more men out in uniform than had ever reported in the history of athletics at Howard. The majority of this material was green and it required a lot of work to whip the men into shape. The season opened with Marion on the campus. The cadets played a good game and only weakened toward the close of the game. Taking advantage of this, the Bulldogs pushed over three touchdowns for their first victory.

The following week the Bulldogs journeyed up to Sewanee and took on the Sewanee Tigers at home. Neither team was able to score a touchdown. Howard outplayed the Tigers in the first half and would doubtless have scored a touchdown but for a fumble on Sewanee's six-yard line.

The Bulldogs, bruised and torn though they were, on the following Saturday, took on Vandy at Nashville. They covered themselves with glory by holding the South's greatest team to four touchdowns.

Early in October, with many injured, the Bulldogs encountered the Tiger of the Plains. Auburn found herself helpless around ends and through the line, hence she turned to the air. With a green backfield on the defense several of the passes were good for touchdowns.

Following the Auburn game we met the Choctaws at Jackson, Miss. Everyone remembers the trick Dame Fortune played on us in the last minute of the game. It might happen again in a thousand years, but who believes it would?

The Bulldogs then journeyed up to Tennessee and engaged Joe Guyon's Unionites in one of the greatest games of the season. Penalties cost us a touchdown and twice the ball was on Union's five-yard line. To our delight and the sport writers' surprise, the game ended in a 0-0 tie, with Howard very much on top.

The team came home to meet the Millsaps Mayors at Rickwood. The weather man got hostile and rain fell in torrents. The Bulldogs proved to he water-hounds as well. They splashed and slashed their way to a 13-6 victory in spite of the mud and water.

The following week found us in Anniston to engage the Jacksonville Normalites in battle. Having held Birmingham-Southern to a tie, they were anxious to do even worse with us. However, we gave them a nice little lesson in the rudiments of scientific football and they departed sadder, sorer, and wiser.

Up to Chattanooga next to try our skill at snake charming, for the Chattanooga Moccasins had been untamed at that time. It was a mean fight those Bulldogs and snakes put up. Many Moccasins were tamed in one afternoon, but several Bulldogs returned to the kennel with swollen jowls and closed eyes as a result of the encounter.

After having played three of the South's greatest teams, after having traveled over 3,000 miles, after having suffered many injuries, we found ourselves at Rickwood on November 24 to face the Panthers in "The Marne of Football." Never in the history of two schools have two teams fought harder. Fumbles cost both teams possible victory. It was a wonder game from all angles. Who ever heard of a 6-6 tie where all the points were made by the field goal route? Then no two men ever played a greater game for Howard than Norris and Captain Shelton. We did not lose; neither did we win, but we fought a great fight. It has been a great season. With the same coach, most of this year's material returning and with the "Genial" Ham to lead, who expects anything but a great season for the coming year?

It is hard to believe when you see such opponents as Vandy and Auburn. But it's true just the same. We had a fighting team, a fighting coach, and we fought all the way. That is why the above result is true.

The Bullpups

WITH an abundance of material on hand, a reserve team was organized this year and games were arranged with the leading high school teams over the state. After Yarbrough's illness, following the Sewanee game, he was placed in charge of the team. The "Bullpups" defeated some of the strongest teams in the state.

Every member of the team deserves a great deal of praise for the good work done. However, to Ford at quarter, Tinklepaugh H. at half and to Starky and Brewster on the line must go the majority of the honor for the success of the season Wells at center was an aggressive, enthusiastic player who gave a good account of himself in every game played.

As this is the first time much attention has been given to the Bullpups, it is hoped that, with added material from year to year, they will become strong enough to arrange a schedule with other college teams of like standing.

The record of the Bullpups appears below:

Bullpups	9	Fayette High	0

Resume

AFTER a two-year vacation it was decided to again put out a basketball team. Immediately after the holidays a call for candidates was sent out. Since Freshmen were not eligible under the new ruling of the S. I. A. A., only about fifteen men reported. Of these Stubbs was the only letter man to report. Coach Yarbrough set the men to work in dead earnest and the above squad was soon selected. Stubbs was chosen as captain and real work began. Handicapped by lack of a floor on which to practice regularly, the team developed rather slowly. The opening game was with the B. A. C. In this game the team showed up fairly well. In a few weeks it developed into a fast aggressive team. In the second game with the B. A. C. they clearly outfought and outplayed their more experienced opponents.

On the only road trip of the season they met and defeated the strong Fort Benning team, and gave the Albany "Y" one of the hottest fights of their career. The Albany papers stated that Howard had the fastest "fightingest" team that had ever played on their court.

The team came home from their Georgia invasion and met their ancient rivals, Birmingham-Southern, at the B. A. C., and easily licked their weaker opponents by a score of 38 to 27. On Friday night of the same week a second game was played at the B. A. C. For the first ten minutes Howard played rings around the Panthers, but Wells and Scokel were forced from the game by personal fouls, and from then on to the end it was one of the hectic battles one often reads about. With only twenty-five seconds to play and with Southern leading, 28 to 27, Howard made a last effort. The tip went from Stubbs to Stevens, who shot for the basket, being fouled in the attempt. The goal was counted and Stevens shot one of the free throws. So we came away all the gladder over victory, knowing that with our regular line-up in we were much better than Southern.

The team then entered the tournament at Macon, drawing Wofford from South Carolina. The game was the hottest of the tournament. After one of the gamest fights a Howard team ever made, Wofford won by a 25 to 24 score.

The playing of Barfield and Stubbs was a matter of much comment throughout the season. Stevens, Scokel and Wear should develop into fine players with the coming season. Huey Wells, at running guard, was the find of the season. With three more years before him, he should develop into the best guard in the South.

The season was not a huge success, neither was it a failure, because the Bulldog licked the Panther and he licked him good and hard. In fact, he just chewed him to a frazzle. And when that has been done by a Howard team, who would call it a failure?

THELMA STACY *(Captain)* . . . . . *Forward*

For three seasons Thelma has been the outstanding star in co-ed athletics at Howard. She has the honor of having coached and put out Howard's first co-ed team, which, by the way, made a great record. She is an excellent shot, a beautiful dribbler, and an all-'round good floor man. Her loss, through an operation, in the last Birmingham-Southern game, was sorely felt. She has twice captained the co-eds, and everyone loves her. She knows the game and plays it as she knows it.

"POCO" LITTLE . . . . . *Guard and Forward*

Here is the hardest working girl on the team. She never quits. Her guarding is good at all times, and she has a good eye for the basket which makes her a valuable asset to the team. Her work against Southern was exceptionally good. She has another year in which to star for Howard.

JEWEL GRAVES *(Manager)* . . . . . *Forward*

Jewel is the only southpaw of the squad. She has been a hard worker for two years and has learned a great deal about the game. The next two seasons should see her develop into a good all-'round basketball player. Her work as manager the past season has been excellent. She deserves a lot of credit for what she has accomplished.

MARY L. MARTIN . . . . . *Guard and Forward*

This was Martin's first year to wear the Blue and Crimson. She is a wonderful player. Her floor work has been the comment of the season. She is good on long shots and dribbles well. In the last game with Birmingham-Southern she was everywhere at one time and scored nine of Howard's thirteen points. She should develop into a great player before she leaves Howard.

CATHERINE WILKINS . . . . . *Guard*

Catherine is another member of the team who is serving her first year. She came to Howard from Birmingham-Southern, where she was a member of the varsity squad. She is one of the best floor men of the entire team. She covers well and breaks quickly. These qualities, together with her ability to hit the basket, make her a valuable member of the team.

EVELYN GRAVES . . . . . *Guard*

This season will be Evelyn's last as a member of the basketball team. She has been consistent in her work and has played some good games in her time. She is a willing worker and a very dependable guard. It will be hard to find one to take her place who will be as consistent in her work at all times.

FRANCES MCNEIL . . . . . *Center*

Teams come and go, but Frances continues to get the tip as usual. She plays the floor well and in an aggressive style. Her shooting is not so good, but another season should see her develop into a fine all-'round player. Her work has been promising all the season and next year Howard should have a fine center in Frances.

LUCILE DORROH . . . . . *Guard*

Lucile has seen two years of service. One at center and one at guard. Her great defensive work helped cut down many a score. She works hard all the time, and never fails to be in her place when needed. She deserves more credit than may be given her here.

Resume

Basketball is about the only form of athletics that girls may participate in at Howard or elsewhere. For three years the girls have labored under every imaginable handicap and have turned out some creditable teams. In 1921, under the coaching of Thelma Stacy, the girls had a very successful season and developed a fine team, one that easily defeated Birmingham-Southern. Last season, as well as this, others have tried their hand at coaching the girls, but have not been so successful. This year the girls had a fine team, but played only a few games. In their two games with Birmingham-Southern they flashed a great defense. Just before the second game they lost the services of Captain Stacy, who is considered one of the best players in the South. Notwithstanding this loss, the team gave Southern one of the hardest fights ever witnessed in Birmingham between girls. The final whistle found the score 14 to 13 in favor of the Southern Co-eds. Martin, for Howard, was the outstanding star for both teams, scoring a total of nine points for the game. The girl is fast and shoots well. As this is her first year at Howard, she should develop into a great player before her college career is ended. Much might be said of Sadler, Dorrough and Little. They are aggressive players and hard fighters. McNeil at center outjumps all her opponents and is rapidly developing into a fine player. While the team has not won so many victories, yet they have fought all the way, all the time and everyone is justly proud of them. With but few losses and new material to come in, Howard should have one of the strongest teams in the entire country. We are for you, co-eds. Go get them.

One thing has been outstanding about the co-eds and that one thing has been their fighting spirit. They never quit. No higher compliment was ever paid a Howard team than this from the "Birmingham News" in its recent review of the last game with Southern:

"Showing one of the greatest spirits that a bulldog team, man or girl, has ever had, the blue-clad girls from Howard fought their hearts out. Each time with their odds against them, their captain and crack shot out of the game, they fought fiercely and well. They were not beaten, only outscored."

BASE-BALL

Resume

When Bob Shelton made that long running catch, retiring the side, in the ninth inning of the last game with the Southern, the curtain fell on the season. It was a splendid play and a fitting close of a splendid season.

Coach Cope has earlier in the year shown Howard supporters his ability as a coach by turning the tables in football. So early in February some twenty-odd men reported on Berry Field for try-out. Among these were several veterans of other seasons. There was "Boiler Maker" Alford, Jess Lackey, Bob Shelton, Bo Brindley and others who had worn the Crimson and Blue in other days. Along with these veterans were such high school stars as Gene Dawson, All-State selection, at second base; "Punk" Cox, one of the best catchers in South Alabama, and last, but not least, Hugh Barfield, the "Babe Ruth" of Lineville.

From the outset it was seen that everyone had plenty of "pep," and everyone predicted a successful season. The weather was so bad toward the end of February that the squad missed much-needed practice. However, the curtain was finally lifted against the strong "'Bama" team at Tuscaloosa. We lost the series, but gained a lot of needed information as to who was who.

Having whipped the team into fairly good shape, and the weather having warmed up a bit, Coach Pope carried his Bulldogs over to Jacksonville to do battle with the Normalites. The team made a clean sweep of the series by big scores.

The Marion Cadets, having tied Howard in football, came to town to have some more fun at our expense. But what did coach do but put "Ham" Stevens, of Marion fame, into the box? Hence, it was a one, two, three affair and the Cadets were sent back to Marion a sadder but wiser crew. In the entire series the Bulldogs hit 'em hard and clean.

The following week the team from Union University came down to add more laurels to their crown. But in the opening game they were humbled to the dust by the mighty "Ham," who allowed them only one little scratch hit, which was due to the slow throw from third. It was one of the greatest exhibitions of pitching ever seen on Berry Field.

With the Union series over, an inspection of the calendar shows that we were due to face the crack aggregation of the soldiers at Fort Benning. Everyone took a long breath and wondered what would be the outcome. The soldiers had humbled such teams as Auburn, Georgia, and the mighty Vandy. Led by the mighty "Hi" Davis, they were prepared to vent their spleen upon the Bulldogs. But the Bulldog had his bristles raised and the first battle resulted in a tie. Having made the acquaintance of the field and style of their opponents, the Bulldogs came back the second day with blood in their eyes. Led by "Babe Ruth" Barfield and Fred White, the Bulldogs gathered in a total of fourteen hits. Barfield got two doubles the first two times up. White secured five hits out of five tries. Score, 6-3 in favor of the Bulldogs.

All during the season the team had worked and trained for one definite purpose—Get Southern! On the first day of May the fight was on for the city championship. Stevens faced Hodge in the first game of the series. It was a fighting team that faced Southern that day, and, led by the heavy hitting of Barfield and the pitching of "Ham", we cleaned them out to the tune of 7-2. Errors showed just how anxious the Bulldogs were because errors were responsible for the two runs made by Southern. Everybody was happy, and the team was anxious to make

it four straights for the series. The second game was almost a repetition of the first, except that "Ham" pitched a better game. Southern scored four runs, but the Bulldog clan made seven errors behind him. The hitting of Barfield was again the feature of the game.

Now what might one say about the wonderful third game? Whoever saw that game saw twelve innings of real baseball. "Babe" Graham and "Ham" Stevens needed on a baseball field. Hits were as scarce as traffic cops in Borneo. The fielding of both teams was as nearly perfect as baseball ever allows it to be. But the day was long and someone had to win. In the twelve innings "Ham" began to weaken and Southern was enabled to win the victory.

Then came that fourth game out at Munger Bowl. "Ham" was back on the mound and every man on the team was determined that that should be the last of the series. Who does not remember how Jess busted the first pitched ball on the nose for a single? Howard was right and it is a hard matter to defeat a team when it is right. Toby Stubbs, "Boiler" Alford, Jess and "Bo" Brindley hit like demons and Southern was doomed.

Of course, we could tell where Southern rallied in the ninth and in that wonderful running catch made by "Bob," but what is the use? We won and we smothered the old Southern gang again, and that is about all the joy any Howard man wants in this life.

It was a good team that represented Howard; it was led by one of the cleanest fighting set coaches in Dixie, and we shall ever look back with pride to their record.

Berry Field

One of the most notable instances of one's loyalty to one's Alma Mater that we have ever heard of anywhere is the recent gift of the athletic field, made by Col. W. A. Berry, one of Howard's prominent alumni. For years Howard has needed just such an athletic field and now we have one—one that we can justly be proud of. This new athletic field not only gives the coaches better opportunity in their work-out with the teams, but it gives us a chance to see our teams in action right here on our campus.

In an effort to show, in a measure, our appreciation for what Colonel Berry has done, the student body presented him, on the night of the annual pep meeting, a loving cup, and we were so proud of our new field that we have erected over the entrance a handsome arch in honor of Colonel Berry.

How proud we are of our distinguished alumnus and of Berry Field!

Student Government

The scholastic year of 1923-24 has been the most progressive year in the history of student government at Howard. It has been the purpose of both faculty and student body to co-operate in such a way as to mutually relieve each other of certain burdensome tasks. Things never before attempted have been successfully undertaken. A new sense of responsibility on the part of the student is being seen and felt. A finer spirit of co-operation is being manifested along lines pertaining to college life in general. It is the purpose of those in charge to create a true spirit of democracy on the part of the student that he, or she, may be fitted for the full responsibilities of living as a citizen in a democracy. Much has been accomplished already, but more remains to be done. Let's set our hands firmly to the task and continue to go forward.

Work of Student Executive Council

In compliance with the constitution of the student body, each class elects two of its members to serve on the student council. These members usually represent the more mature and conservative members of the respective classes. This council is the controlling factor in student government at Howard. They see to it that the honor system is carried out, that all other regulations are enforced, and check and audit all records and reports of student managers. The council of 1923-24 has been a good one. They have been diligent and watchful. They have been progressive in spirit, yet conservative in action. The successful year enjoyed in all student affairs has been partially due to their efforts.

Although the dormitory girls have just been organized under student government for a few months, it has proved an excellent plan. Howard student body, as a whole, is run by student government and so the girls decided that, by their organization, all ends of the government would be upheld. It is an ideal plan for running the "ranch" and the year's results of discipline far exceed any of previous years.

"HOWARD

Dramatic Club.

The Howard Players

The name "Howard Players" was adopted by the Dramatic Club when it was organized in the year '20-'21 under the able leadership of Miss A. Bess Clark, assistant English teacher that year. She chose as a starting point a group of students in English III as an expression class, and with these as a nucleus she built a strong and active club. The aim of the club is threefold; namely, the development of the dramatic talent of the students; the development of appreciation of better drama, and a promulgation of interest in Howard throughout the state.

Each year the Howard Players put on a very successful program at the Jefferson Theater, and in this way it serves to advertise the college as well as prove beneficial to the participants.

Besides the various songs by the club, the program is featured by many other numbers. The main features are the varsity and scrap-iron quartettes. Messrs. Howard Band

The Howard band was organized in September, 1923, under the able directorship of Professor Fred G. Wiegand. Although the first time such an enterprise has been undertaken here, it has proven a tremendous accomplishment. At first only about fifteen members could be mustered and success seemed impossible, but by November there were over thirty enrolled, and on the day of the Birmingham-Southern-Howard game forty-four uniformed "Sousarites" gave spirit to the fracas. From that number thirty earned their letters.

We are firmly founded now and our greatest desire is that the sound which rang out that September morning may be perpetually relayed throughout all the sessions which are to follow and so establish our present bright hope into a magnificent tradition.

RELIGIOUS ORGANIZATIONS

The Divinity Club

THE best part of ministerial education at Howard is not theological, but personal, practical and social. Young preachers go to Howard as crude as unrefined Texas petroleum, they leave as polished as new benzine; they enter Howard as theoretical and unsubstantial as a petrified dream, they go away with some definite knowledge and experience in Christian service; they enroll in the college as timid and unsocial as the rabbits DeSoto found around Tuscaloosa, they graduate fairly well prepared to face a life of social relations. That is all just a round-about way of saying that ministerial students at Howard get training and experience which is absolutely indispensable to success as churchmen and Christian workers, although that knowledge and experience is not primarily theological.

More specifically it is interesting to note that there are forty-six ministerial students at Howard this year, twenty-two of whom have full-time or part-time churches, preaching sixty-four sermons in thirty-seven different churches every month, reaching approximately six thousand souls with the gospel message. Last summer about one hundred and fifty people were baptized by Howard students. Other students do much pulpit supply work and general religious service in the churches and Sunday schools of Birmingham. The preachers are a busy tribe, an energetic set—splendid band.

"Here's to the preacher,
The upward reacher;
The man who lifts—
Gives God his gifts—
Here's to the preacher."

On January 19, 1922, the co-eds of Howard College organized a student Y. W. C. A. with practically all the girls in school as members. The organization was perfected by Miss French Haynes, assistant professor of English, who was a leader in the Y. W. C. A. at Meredith College.

The purpose of the Y. W. C. A. is to bring the co-eds closer together and to lead them through faith to Jesus Christ.

Aileen Gullahorne has charge of the Freshman commission, in which a large group of girls are being trained for future cabinet members.

The work of the publicity committee has been very effective under the expert hand of Lola Moody, assisted by Katherine Wilking.

The Y. W. C. A. is by far the largest organization on the campus and great credit is due it for making Howard College keep on the map. Two representatives represented the organization at Blue Ridge last summer.

The Y. M. C. A. at Howard is at present a very active organization. It remained in a dormant period for almost four months on account of lack of co-operation and lack of purpose, but a rejuvenation was enacted, and in the early part of the new years, with a re-election it began to be very active.

The purpose of the new Y. M. C. A. is to be the main stepping stone and the middle stile of all the religious and social organizations on the campus, maintaining a standardization which will fulfill the real needs of such a campus as Howard has. The "Y" intends to take charge of everything important, both materially and morally, that will carry our institution to the ranks of the highest.

The membership this year is select. The charter members were selected, and it is their purpose to keep the non-workers and the non-co-operatives out of this live organization. Instead of making it an association of everybody, with nobody doing any good, the group of organizers figured and decided it best to make it a select honor to belong to it. As a result, the "Y" is alive and its organization and work can be felt and is rapidly becoming an important factor on our campus.

Student Mission Band

THE challenge has come: "Go ye into all the world and preach the gospel to every creature." Many have heard and heeded the command and have sacrificed their lives gloriously and unselfishly in the service of the Redeemer. Many more are giving their youth in painstaking preparation for an even greater service. One of the most conscientious, hard-working mission bands anywhere is the group of happy, joyful, young Christians at Howard who have volunteered their all in the service of the Master. Daily they are trying to so live that others may see their good works and glorify our Father.

Square and Compass

IN the year 1717 the first grand lodge of symbolic Masonry was organized and just two hundred years later, under the laws of Virginia, the national fraternity of Square and Compass was organized. The Square and Compass is an intercollegiate organization of men who are Masons. The fraternity was organized for the purpose of furthering Masonry and that for which it exists among college men who are Masons. Here we resolve ourselves together to help humanity and uphold the principle of brotherly love and co-operation, and especially do we wish to help the college to carry forth the lighted lamp of learning into the darkened corners of error and ignorance.

The different chapters of the fraternity are known as squares. The Howard square was organized February 11, 1921, with the following men as charter members: H. L. Nipper, J. J. Bell, W. T. Edwards, A. M. Glover, V. B. Ross, V. M. Gardner, B. Lawrence, W. M. Kelly, R. B. Sims. The chapter has continued to grow from the start and it is only a matter of time until they will have a house on the campus.

At present they are laboring under a very great handicap by having to use the Franklin Literary Society Hall as a meeting place.

There are several men on the campus who are being made Masons.

Literary Societies

MEMBERS of the Philomathic Literary Society feel a certain amount of pride in the fact that theirs is the oldest organization of its kind in the state. There is also a deep sense of pride in the traditions of this society. It boasts of the largest membership on the campus. The work of the present year has been unusually successful. Its members, as never before, are displaying great interest in the organization.

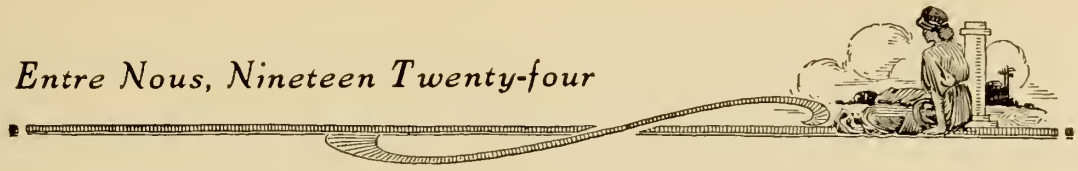
There is another society for men on our campus—the Franklin. They, too, boast of an eventful past. The sixty-seventh year of their history is past and they are proud that the record they have made this year will add many things to the glories of former years. The membership is not as large as that of the other societies, yet they feel that in quality there is strength.

There is a splendid spirit of rivalry existing between these two men's societies. For years there has been a debate between these societies and as usual the feeling is running high as the time approaches for the annual clash.

The Shelburne is the older of the two literary societies for women. Formerly its membership consisted of the entire co-ed student body. They have had a very successful year to crown their other brilliant years of the past.

The number of co-eds has increased steadily from year to year, and the increase this year was so great that it was deemed wise to organize a second literary society for young women. The result has been the organization of the Pulliam Literary Society—an organization which bids fair to run a swift race for first place in the ranks of the literary societies.

The purpose of these societies is to offer to its membership an opportunity to whatever talent he may have to cultivate. Two semester hours credit is given for regular attendance upon one of the literary societies and such attendance is required of all candidates for degrees.



The Ensley-Howard Club

The Ensley-Howard Club consists of all the students who are graduates of Ensley High School. Its members are very active and they arrange many plans which cause prospective students from Ensley to become interested in Howard. Boost Howard. Welcome new students. That's the spirit.

CO-OPERATIVE "DINING"

Among the most cherished traditions of Howard is the co-operative student management of the dining hall at Renfroe, where all the campus residents take their meals. It is operated entirely without faculty supervision by men who eat there, under the general guidance of Mrs. Harris, dietitian. More and better food at lower cost is the boast of every Renfroe roomer. Board bills are paid monthly in advance, and at the end of the year any sum that is left over is divided proportionately among those who have met their monthly bills. The Dining Council is composed of one representative from each of the four fraternities, the Divinity Club, and the non-frats, and these men are elected by their respective groups. The manager is elected annually by the council, in whose power lies the employment of waiters and dining hall regulations.

THIS is a society, the purposes of which are to emphasize the importance of the highest proficiency in student scholarship, and to stimulate individual ambition by making membership in it the reward for notable excellence in studies and for notable service to the college. Members are elected from the faculty, the graduates and undergraduates of the college. Undergraduates are elected from those members of the Senior Class who have maintained a grade of A in a majority of their courses for the whole period of their stay in college. Faculty members and alumni and alumnae are elected on the ground of notable scholarship, the achievement of honors for themselves in college, or the rendering of noteworthy material service to the college. College Sunday School Class

THE Howard College Sunday School Class continues to run successfully in its old meeting place in Montague Hall. It bears the name of "B" and truly it comes up to its name. Dr. W. A. Barrett is their eloquent, intellectual, and influential teacher. He is one of the most efficient Sunday school workers of the state. It is a blessing and an inspiration to the college students to be thrown in contact with such a man.

The class has a large membership this year and is flourishing under an efficient corps of officers. The officers are as follows:

J. S. Brindley . . . . . *President*
Ruby Burns . . . . . *Vice-President*
L. E. Carrol . . . . . *Secretary*
E. L. Darden . . . . . *Treasurer*
Cora Blanche Morris . . . . . *Pianist*

College B. Y. P. U.

The college B. Y. P. U. is one of Howard's liveliest organizations. Its membership increased so much this year that it was necessary to divide it into two contesting unions. They are the "IXL" and the "JOY." Both of the divisions are led by excellent and efficient officers. As a whole, the union lives up to the standard as a Baptist Young People's Union. Each division of the union is made up of four groups. The group leaders are all very competent and each Sunday evening inspirational programs are carried out. The B. Y. P. U. means a lot to Howard, and as an organization we recommend it as one of the best. They emphasize the training of young people and the members boost their union. Let's go, B. Y. P. U. We are for you.

We'd "Give Up the Ghost" If

There were any heat in the Main Building on cold days.
Exams were abolished in Howard.
Everybody attended the student body meetings.
Sunday didn't come between Saturday and Monday.
The boys didn't have their "bull-fight" three times a day.
Campus politics were a thing of the past.
Fees came due except when we were "busted."
Professor Burns were to give an easy Shakespeare exam.
Dr. Schliemann wore a collar large enough.
Dr. Hendrix should have his door unlocked after the five-minute bell.
Dr. Dawson were to stand still while delivering an address in chapel.
Dr. Chapman were to cross his legs.
Professor de Launay failed to comment on the—
Professor Eagles should find a hair restorer and use it "as far as I know."
Mrs. Vandiver could get her rehearsals attended.

The Birmingham News

THE SOUTH'S GREATEST NEWSPAPER

SUNDAY MARCH 16, 1924

Ethel Clark, Best All-Round

Her fineness is like that of unpolished gold, not so glaring that it becomes repulsive, but valuable just the same. She has that wonderful ability which allows her to advise, to sympathize, to understand. Every student knows her; every student loves her.

Fred White, Best All-Round

Here he is—football star, poet, playwright, musician, actor, and a well-known writer of ballads and song hits. If you beat that list of accomplishments, bring on your horse. Some one has suggested that he be placed on the payroll of the college as a general utility man of future student bodies.

"Ham" Stevens, Best Looking Man and Best Athlete

What is more handsome than a handsome man? What chance has a girl when such a man carries a flashing smile like "Ham's," and takes all the glory possible on the gridiron, basketball court, and baseball diamond at the same time? He may be a bit frosty on the dome, but that comes from hard study (?), of course. "Ham" has been selected as the best all-round athlete at Howard again this year. This is twice "Ham" has had this honor. Every one congratulates the athletic council on their choice, and we hope "Ham" continues to do the work which will win more cups.

Nell McElheney, Prettiest

She must have been the inspiration for "Wonderful One." Students come and go, but Nell's title remains unchallenged and unchanged. For two consecutive years she has been voted the prettiest girl at Howard. What chance do poor men have when women have eyes like Nell's?

Gene Dawson, Most Representative

If you want it done, send Gene. In the short space of two years, he has made himself known as the most dependable boy on the campus. His future career will be bright indeed, if he continues to travel the course he has followed so well thus far.

"Bill" Kirk, Most Dependable

Every institution, every organization, every individual must have something to lean upon. "Bill" carries the burdens of the faculty, student body and many organizations. Someone has suggested that when "Bill" stands to receive her diploma that "Rock of Ages" be sung. Howard may well be proud of "Bill." She is one of the most outstanding girls in the college.

Fred Carter, Brainiest Man

Gaze upon him, gentle reader. He makes A's as a matter of course. Does he bone for them? No, sir, he is not a sponge which drinks up knowledge, but he is one whose brain just naturally gives up knowledge of its own accord. Brilliant and congenial, Fred is a very popular student.

George Yarbrough, Best Politician

Behold the politician of Howard! We are tempted to say that George is "first of all this and first of all that." The truth of all the matter is that he has taken a leading part in every activity with which he has been associated. His travel and experience has made him particularly able in all fields—literary, athletic, love and—politics. Here's to you, George! Nothing succeeds like success.

Frank Mullins, Most Popular Boy

Who is it at Howard that does not know Frank? Who is it that does not like him? He leads the cheers. He sings our solos. He laughs and jokes for us when we are down and out. He is King of the Hoboes, and an all-round likeable fellow. When he leaves, who is going to raise a noise at 2 in the A. M.?

"Liz" Loyd, Cleverest

Who has ever met "Liz" that did not remember the introduction and name? She just naturally causes one to remember her. Her girlish smile, her baby eyes, and her striking personality, all combine to prevent such a thing as forgetfulness on the part of either friend or chance observer. No girl at Howard is more widely known than "Liz."

Marlin Harris, Most Original

Marlin may never invent a new method of transcontinental transportation, but she can invent more original expressions, more original jokes per minute of time than any other ten girls combined. It is not mental ability, either; it is just that natural, likeable quality which is just Marlin's. Every one knows her; every one likes her; every one enjoys being around wherever she may be.

Lee Head, Biggest Flirt

Don't believe him, girls. He is opposed to truth telling where you are concerned. He is as adept at flirting as he is at catching baseball, and he is going to the big show this season. Then, too, Lee has had so much experience—and experience counts in a battle of wits. Lee is a popular fellow at Howard for more reasons than we have space to enumerate.

Julia Finklea

Gaze upon her, but do not touch her, lest something terrible should happen. She is so exquisitely dainty, so petite, so demure, that she is the despair and the delight of everyone at the same moment. Julia is a rare combination of all the delightful traits which make the imagination revolve about innocence and purity.

Harold Tinklepaugh, Biggest Bluffer

When a fellow can come to college and bluff his way into a class presidency, as well as various other honors, along with A's and B's without study, you must hand it to him. He is good—that's all. Harold is a popular student and should make good in a big way.

Stunt Night

AN event which has been a feature of college activities for the past two years and one which promises to be such in the future is the annual "Stunt Night." That's the time when we have the chance to display our class spirit. Each class gives a stunt and each class vies with the others in an effort to win the trophy. The event this year was a grand success and class spirit was what everybody had that night.

The Freshman stunt was divided into two parts. The first part looked backward to us; in fact, it was backward. All the representatives wore their clothes "hind part before," and—sh, they were two faced. They gave us a number of readings and the human organ, except for an occasional sticking of the keys, gave us the most musical music we have ever heard. The second part of their stunt consisted of a "silent drama" called "Wild Nell." It was odd and clever.

The Sophomore stunt was a "Deestrick Skule." We were permitted to see the different members of the faculty as they were in "ye goode olde days" as they went to the "little red schoolhouse with the book and slate." Although this was the usual thing, it was carried out in a very unusual way. It was an old song to a new tune.

The Juniors went on a camping trip, and my, what a time they had! And the good part of it all was they had their camp right where we could get the good out of all that went on. We enjoyed the potato race 'n everything, and especially did we enjoy taking the ride in Dr. Chapman's "flivver."

The Seniors presented a scene from the Crimson office called "The Freshman Gets a Job." This scene was written especially for the occasion by the president of the class. Miniature Crimsons were distributed by the "Newsies" and then the show began. We didn't know it was in the Seniors, but it was, and it came out—and very cleverly, too. The stunt was well done and entirely original.

All the stunts deserve the highest commendation, but the judges declared that the Freshmen had won. "Render unto the Freshmen the things that are theirs," and we know they will try to repeat their victory next year. Remember: Stunt night is that perpetual motion machine scientists have been trying to invent. And our ———— grew and will continue to grow.

In memory of those who lacked ambition to have their pictures made.

Final Appreciation

WE wish to express our appreciation to all who have helped so ably to make this volume a reality; to Turner Studio for the good quality of the pictures; to Central Engraving Company for its most efficient service and inestimable advice; to the students for their co-operation in picture making; to Professor Burns for his constructive criticism, especially in the Senior division; to the president of the student body who gave so graciously of his time and contributed greatly to the literary value of the book; to Freshman Warren for his excellent service in typing; to each member of the staff for his work; to those friends on whom the editor has so frequently called, and to those who have listened so sympathetically to our numerous tales of hard work.

We must realize that many hands have been concerned almost directly in the making of this volume, and to the managers must be given not the whole credit for the successful outcome nor the entire responsibility for all mistakes, but some must go to the photographer, the engravers, the printers and the students.

Now that we have our annuals, let's be happy in the memories which they bring forth.
